TERMS OF SALE

All coins and bills guaranteed genuine.

New bidders or customers sending in bids for the first time must positively give first class reference, bank reference preferably, or else send a deposit of at least 25 % of the total amount of bids. Otherwise, their bids will not be accepted; application of such deposit will be made upon successful bids; the seller reserves the right to demand payment upon successful bids before delivery in his sole discretion. To those known to me who have established credit, a reference or deposit is not necessary and purchases will be sent out promptly after the sale. In appreciation of this courtesy the purchaser remits promptly.

Collectors who make unlimited bids will get the lots at 5 % above the highest actual bid entered.

The terms are prompt cash settlement after sale, and no time given. Collectors who are not certain that they can pay promptly are asked not to bid. The coins in the sale are the property of my clients, and I must make prompt settlement for them.

Remit by money order, draft, check, or in any way most convenient. Stamps accepted for accounts that are below one dollar only.

Coins will be bought below your bids where other offers permit, as this is competitive bidding, executed in good faith.

The usual charge of 5 % will be made for executing your bids, and for packing and sending out material. No charge made on anything not actually purchased. Postage and express is paid by the purchaser.

Receipted bills are not sent out after your remittance as this is unnecessary. Your check, draft or money order itself is a receipt. However, if a 3-cent stamp is enclosed we will send receipt.

Be certain that you bid on the lot you wish to buy. We will correct errors and adjust claims, but you should not expect us to pay for your mistakes. Be careful in making your bids. Be sure that you bid on the lot you wish to buy, and at so much per piece.

Bids must reach me by the morning of the sale. Mail them in time so as to avoid disappointment. At each sale some bids arrive too late to be executed.

All bids are entered as received and lots distributed to the highest bidder without reserve. When two or more bids are the same, and there are no higher bids, the first received gets the lot. When two or more unlimited bids on a certain lot are sent, the first one received gets the lot at a 5 % advance over the highest actual bid.

Between the seller and buyer, my position is describing the condition of coins and bills has been neutral. My classifications are generally considered to be conservative, by the collecting public.

It is easy to bid by mail. If you do not know how much to bid on any items, write me giving numbers in catalog and I shall be glad to inform you as to values. It is useless and a waste of time to make low bids that have no chance of success. I sincerely hope that each collector acquires some nice lots from this sale that give him a real thrill and joy of satisfaction.

Please bid by the piece unless stated to bid for the lot. Thus, if there are 12 pieces in a lot and you wish to pay \$6 for the lot, then bid 50c. At each sale someone bids by the lot. Don't do this—bid by the piece.

PRICE LIST OF THIS LARGE SALE—50 CENTS

A printed list of all the prices realized at this sale will be sent for 50 cents to all bidders patronizing the sale. To those not bidding the price is one dollar. A half-dollar or two quarters, wrapped in a little paper and enclosed in envelope with your bids, will reach us safely every time, and a 3c stamp carries the letter just the same. As an alternative stamps will be accepted, or if preferred, we will charge to your account and add to bill of purchases. Your 50 cents is money well invested. It helps to keep posted on values.

ANCIENT GREEK SILVER COINS

A high-grade collection of this most interesting and historical series. In Europe where coin collecting is of long standing, and the general public knows what a numismatist is, more than half the collectors own a collection of ancient coins. In this country, collectors are awakening to the interest in them, and the reasonableness at which they can be purchased here. European prices are much higher. In order to assist bidders in arriving at a fair value, we have given estimates of the value of each lot, or about what to bid for a good chance of success.

GRAND COLLECTION OF GERMAN SILVER THALERS

This collection of German thalers and 3-mark silver pieces includes numerous commemoratives, and are in beautiful and choice condition. When a similar collection was sold in our 119th sale, little did we expect that another equally fine collection would turn up two months later. Here we have it, from an entirely different source, and with at least forty new varieties not in the former group. All of the pieces in the Oct. 22 sale were sold at from 80 cents to \$3 each. We probably won't have another choice lot for years.

54. German thalers, all different, from 1818 to 1871. All diff. busts. Includes Prussia, Saxony, Hanover, Hesse, Schwarzburg-Sondershausen, Frankfort, Nassau, etc. Fine (2); others very fine to unc. 19 pcs.

A TRIP ABROAD

(Continued from 120th catalog)

The next day in Berlin we went on an all-day sightseeing trip to Potsdam, historical site, and place of the costly imperial palace. Most of the the journey was made by boat. Here we see the park of Sans Souci with its fountains, avenues, and statuary. Sunday morning we traveled by train to Wittenberg. We walk about and see the old town, Martin Luther tree, and attend service in German at old Castle Church. After dinner at the Golden Eagle Hotel, over 400 years old as a hostelry, we climb the old town hall tower for views about the town, and inspection of the tower. A small museum revealed outstanding collection of old Wittenberg coins, and coins of Martin Luther. Many very rare crowns and smaller pieces of Wittenberg were discovered, such as not seen in any other museum of Europe. But it was a specialized collection and there were few coins of other cities and states. It is truly remarkable what really exists in the coinage of almost any old city or bishopric if search enough is made. I never believed such pieces existed, also in multiple crowns. As Dr. Mabbott of New York remarked, when he suddenly and unexpectedly met me in the British Museum later, some of these sights of certain series of coins "knock your eyes out." There were medals, too, of Martin Luther, some of them of great rarity.

Now we board a late afternoon train for Dresden, Saxony's capital, and a city of over half a million. The country looks beautiful, with its fields of golden grain, rows of trees carefully planted, windmills and farm scenes. The Zwinger Art Galleries in Dresden are outstanding here. We see the original Sistine Madonna and many other famous paintings by the masters. The coin collection's curator is the friendly Dr. Walter Philip Schwinkowski. He showed us a remarkable collection of old dies, and we found some of the broken dies of particular interest. There is a fair general collection of all countries in the world, but the United States counts very little abroad as a coin-issuing nation. There were just eight American coins, that is, of the United States. Of course, there was a specialized collection of Saxony, several thousand different old crowns. A good place for a study of the old Saxony coinage of the Dukes. As in all European museums, there is a fine ancient collection. Most of the collection, though not all, is kept in safety vaults, as the A.N.S. in New York.
